25A31A0560 – Sathi Siva Charan Reddy

25A31A0540 – Lakkoju Pavan Bala Murali

25A31A0526 – Sheik Hamdunisha

25A31A0516 – Mallavarapu Sri Pavitra Devi

Branch & Year – I CSE A

College Name : Pragati Engineering College (A), Surampalem.

# Objective of the Project

The main aim of the Nearby Government Services Finder project is to help user easily find and access nearby government services like hospitals, police stations, post offices..etc; in a quick, simple, and organized way.

## Objectives

- ✓ To provide quick access to essential public service information.
- ✓ To create a simple and user-friendly interface for beginners.
- ✓ To demonstrate real- world use of C++ programming concepts.
- ✓ To driven a menu-driven C++ application for service searching.

# Advantages

- ❖ Easy to use and understand.
- ❖ Helps users quickly locate important services during emergencies.
- ❖ Useful for students learning C++ programming.
- ❖ Saves time in searching for government services.
- ❖ Can be extended into real-time applications (GPS, mobile apps).
- ❖ Demonstrates practical implementation of programming concepts.
- ❖ Uses local data for better understanding and realism.
